Subject: FW: Availability for Gold King Mine Animas River Response

Good Morning:

Thank you to those who have taken the time to reply to the message below. If you haven't, please respond as soon as possible. As of today, we have Chris Wagner and Mike Towle working on this response. It is important to know who is available and when, so please send your availability for the weeks listed below, as soon as you can.

Thanks,

Cindy E. Santiago

Subject: Availability for Gold King Mine Animas River Response

Region 3 OSCs:

This is to request your availability for a deployment to Regions 6,7,8 or 9 from now until

November 21st. As many of you have probably heard in the news, approximately three million gallons of water from the Gold King Mine, north of Silverton, CO were accidentally discharged into the Animas River; San Juan County, Co. EPA Region 8 has been coordinating with Regions 6, 7 and 9 and 4 States and 2 Tribes for this response.

As of today, Region 3 has not received any request for support, but given the magnitude of this incident, we are developing a list of available staff. Please select from the list below all the weeks when you will be available to travel. We will use it to coordinate deployments if support from Region 3 is requested. In the event of a Region 3 activation, and depending on the type of support they need, you will receive more specific information regarding your deployment (dates, length of deployment, location, lodging, type of work, etc.).

Please select the weeks when you will be available for a deployment:

August 16 – August 22

August 23 – August 29

August 30 – September 5

September 6 – September 12

September 13 – September 19

September 20 – September 26

September 27 – October 3

October 4 – October 10

October 11 – October 17

October 18 – October 24

October 25 – October 31

November 1 – November 7

November 8 – November 14

November 15 – November 21

Thanks,

Cindy E. Santiago
